

COVID-19 Update #22

November 23, 2020 – 1:00 pm

Dear Registrant,

As you are aware from our bulletin on Friday, the Ontario Government has implemented lockdown measures for Toronto and Peel effective today and for the next 28 days.

The College has now received confirmation from the Ministry of Health Emergency Operations Centre that health services **may remain open** in these zones during the lockdown period. As previously communicated, opticians should continue to adhere to the [Return to Practice Guidelines](#), including taking steps to ensure health and safety in the practice environment.

The College continues to monitor the situation and will provide updates as additional information becomes available to us.

Kind regards,

Fazal and the COO Team
